

NECESSARY FOR HEALTH

Only good, functional **circulation** ensures **proper** supply of nutrients and oxygen as well as **proper** waste removal within the body.

This is **fundamental** for all metabolic processes. On this basis, it is clear what a critical role the circulatory system plays in overall **health** and **well-being**.

The **disposal** and **supply** cycle
Proper supply of oxygen and nutrients to the cells and **disposal** of waste products equals a **healthy body**.

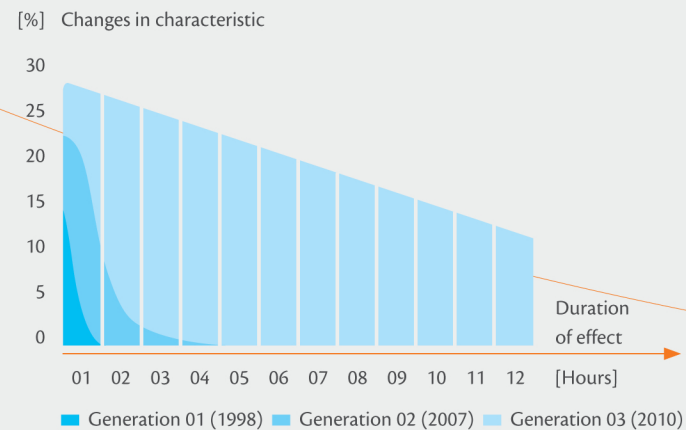

ONGOING STUDIES SINCE 1998

We began as a **leading** innovator in the Pulsed Electro Magnetic Field (PEMF) sector. Through **ground breaking** research, we were able to quickly reach a completely new level in the development of our technology. Today, the only similarity between PEMF and BEMER devices is the electro-magnetic field. However, we do not use PEMF as an active agent but as a carrier for our **unique** physical signal configuration.

BEMER owns five global patents and BEMER research has received numerous scientific awards.

Improved Signal Prolonged effect
 Evolution of product generations

Medical cooperations

- University of Rome
- University of Budapest
- Technical University of Dresden
- Bernie S. Siegel, M.D. (Medical professional & book author)
- Dietrich Klinghardt, M.D. (Medical professional & book author)

Cooperations

- NASA
- IPO (International Prevention Organization)
- Institute for Microcirculation (Campus-Berlin Buch)
- IMIN (International Microvascular Net)

Awards

- reddot design award
- German Design Award
- if Communication Award
- tekom Doku Award
- Science Award
- Werte Award
- Testlabor EU

Registered

- FDA, MDC, ANVISA
