7-time World Cup Champion / Alpine Skiing

EASY TO OPERATE AND EFFICIENT 15 MINUTES FOR YOUR WELL-BEING

BEMER technology is easy to apply and anyone can use it. Along medical professionals, clinics are implementing BEMER for preventative purposes and as a supplement to other treatments. In sports, it is used to enhance athletic training and to accelerate the recovery process. The greatest benefits can be achieved with daily use at home.

Using BEMER every day in combination with the sleep program is the formula for the best results. Just two a minute sessions per day are needed to improve your circulation. It is that easy to enhance your physical well-being. And you can even use BEMER during sleep (see BEMER sleep program).

APPLICATION MODULES

- BEMER Classic Art. No. 02000
- BEMER Professional Art. No. 03000
- BEMER SPORT Art. No. 07000
- BEMER PRO Art. No. 08000
- BEMER PRO Art. No. 07000
- BEMER SPORT Art. No. 07000

THE ADVANTAGE IN SPORTS RECOVERY

BEMER therapy is used for well-being, improved cardiac function and physical fitness. The majority of the global population could benefit from using BEMER, and it is highly portable and easy to use.

Only good, functional circulation means proper supply of nutrients and oxygen as well as proper waste removal within the body. This is fundamental for all metabolic processes.

On this basis, it is clear what a critical role the circulatory system plays in well-being.

WHAT TOP ATHLETES SAY
