AREAS OF APPLICATION
HOLISTIC SUPPORT FOR HORSES

The BEMER Signal has a positive effect on your horse's entire body and effectively stimulates the circulatory system. It is a non-invasive, non-pharmaceutical and effective support for your horse's recovery, regeneration of muscle tissue, and more efficient hydration.

POSITIVE EFFECTS OF THE BEMER APPLICATION:

- 1 Promotes recovery and regeneration
- 2 Reduces muscle damage
- 3 Reduces stress during transportation or competition
- 4 Improves water storage in the tissue
- 5 Supports recovery after an injury
